- 2. These one day vertishops will study selecting and install. ing a file system, filing supplies and equipment, the Agency Records Progress, and solving office filing problems, Although the Subject-Numeric Filing System is emphasized for administrative files, use of other types of special files and filing procedures are also reviewed.
-]. We found that last year's answesful attendance was due to the positive ention by Area Rucords Officers the personally pashed for a representative ettendence for much office in their erace. Therefore, I will appreclate your proposion of registration again, for this year's Filing Workshops. I'm sure your records program and office file procedures will definitely conefit through each parame you aneccurage to acceed the filing Workship.
